

BIAMP · ROOM SYSTEMS

Biamp Devio UCX

The room computer with a pro DSP inside.

Devio UCX collapses the room rack into one device: an Android-based UC compute running Teams or Zoom with Biamp's professional DSP onboard, in three tiers that scale from huddle rooms to AI-ready large spaces.

PLATFORMS & ROOM FIT

Microsoft Teams Rooms · Zoom Rooms · UCX 1000: huddle–medium · UCX 2000: medium–large + mics · UCX 3000: dual display, AI-ready

SPECIFICATIONS

Platform	Android-based UC compute (2026) running Teams Rooms or Zoom Rooms natively
DSP	Integrated professional Biamp DSP — conferencing bar, mic and speaker processing without a separate box
Tiers	UCX 1000 for bar-connected huddle/small-medium rooms; UCX 2000 adds microphone connectivity for larger rooms; UCX 3000 adds dual display and AI headroom
Ecosystem	Hub for Parlé microphones and bars, Desono loudspeakers and Vidi cameras — one brand, one design

HOW FOCUS AV DEPLOYS IT

- Specified tier-by-tier across your floor plan so every room gets exactly the compute and audio it needs — no over-buying the huddle rooms.
- Deployed native to Teams or Zoom, with Parlé coverage designed to the seating and Desono playback tuned in-room.
