

LIGHTWARE · BYOD & CONNECTIVITY

Lightware Taurus UCX

The USB-C backbone of serious BYOD rooms.

Taurus UCX is the universal switcher that makes single-cable USB-C rooms real — video, USB, power and network through one connector, with matrix switching between multiple laptops and displays.

PLATFORMS & ROOM FIT

USB-C single-cable · 4K HDMI matrix · BYOD & native rooms · Boardrooms & training rooms · Multi-laptop spaces

SPECIFICATIONS

One-cable	USB-C delivers the laptop video, USB peripherals, network and charging through a single connection
Switching	True matrix between multiple sources and displays — two presenters, two screens, zero replugging
Integration	Hands the room's camera and audio to whichever laptop is live — pro-grade BYOD
Control	Third-party control integration and Lightware's enterprise management

HOW FOCUS AV DEPLOYS IT

- Designed into the room's joinery with dressed USB-C access per seat position; configured, controlled and documented.
