

LOGITECH · ECOSYSTEM PAIRINGS

Logitech & Biamp

Logitech rooms with Biamp's beamtracking ears.

Logitech's certified video and compute paired with Biamp Parlé beamtracking microphones and Tesira processing — the combination for rooms where talkers move and audio can't.

PLATFORMS & ROOM FIT

Microsoft Teams Rooms · Zoom Rooms · Training & dynamic rooms · Large meeting spaces

SPECIFICATIONS

Video & compute	Rally family bars or Rally Plus + RoomMate, certified Teams/Zoom
Audio	Biamp Parlé beamtracking ceiling/table mics with Tesira-grade processing
Strength	Beamtracking follows moving talkers — presenters, trainers, pacing thinkers
Voice lift	Parlé + TesiraFORTÉ X can reinforce speech through room speakers in big spaces

HOW FOCUS AV DEPLOYS IT

- Parlé coverage designed to movement patterns, not just seats; bridged to the room compute; commissioned in-room.
