

LOGITECH · TEAMS ROOMS BUNDLES

Microsoft Teams

The Logitech + Microsoft Teams ecosystem, mapped.

Logitech builds the most widely deployed certified hardware family for Microsoft Teams Rooms — this is the ecosystem overview: which bar, controller and accessories fit each room size, and how Focus AV deploys them across Perth.

PLATFORMS & ROOM FIT

Microsoft Teams Rooms · Huddle to boardroom · Fleet standardisation

SPECIFICATIONS

Small rooms	Rally Bar Huddle or Rally Bar Mini with Tap — certified one-touch Teams in the 2–8 seat tier
Medium rooms	Rally Bar + Tap — the most-deployed certified Teams Room configuration in the market
Large rooms	Rally Plus with RoomMate compute and Tap — modular audio and PTZ camera at boardroom scale
At the door	Tap Scheduler panels complete the estate with visible booking status
Management	Teams Admin Center + Teams Rooms Pro alongside Logitech Sync — one story for IT

HOW FOCUS AV DEPLOYS IT

- We map your floor plan to the tiers, deploy against your Microsoft 365 tenancy, and document every room to the same standard.
- Fleet standardisation is the win: one interface for users, one spare strategy, one management plane.
