

LOGITECH · ECOSYSTEM PAIRINGS

Logitech & QSC

Logitech video inside the Q-SYS operating system.

Logitech's certified conferencing riding on Q-SYS audio, control and automation — the pairing for high-value spaces where the meeting is only part of what the room does.

PLATFORMS & ROOM FIT

Microsoft Teams Rooms · Zoom Rooms · Q-SYS control · High-value & divisible spaces · Boardroom + townhall rooms

SPECIFICATIONS

Video & compute	Rally family with certified Teams/Zoom — the meeting layer users touch
Audio & control	Q-SYS Core processing, networked audio zones, touchscreens and room automation underneath
Flexibility	Divisible rooms, overflow routing and multi-mode spaces handled in the Q-SYS design
Management	Q-SYS Reflect + Logitech Sync + platform portals — every layer observable

HOW FOCUS AV DEPLOYS IT

- Designed as one Q-SYS program with the certified room embedded; commissioned across every mode the space owns.
