

## LOGITECH · VIDEO BARS

# Logitech Rally Bar Mini

*Rally Bar quality, sized for small rooms.*

All the engineering of the flagship Rally Bar in a smaller chassis — 4K camera, AI framing and rich audio for the four-to-six person rooms where most meetings actually happen.

## PLATFORMS &amp; ROOM FIT

Microsoft Teams Rooms · Zoom Rooms · USB / BYOD · Small rooms · 4–8 people · Wall, table or TV mount

## SPECIFICATIONS

|            |                                                                                          |
|------------|------------------------------------------------------------------------------------------|
| Camera     | 4K sensor with motorised pan/tilt and HD zoom — sharp at typical small-room table depths |
| Framing    | RightSight AI auto-framing composes the shot around whoever's in the room                |
| Audio      | Integrated speakers and beamforming mic array tuned for small rooms; Mic Pod expandable  |
| Platforms  | Runs Teams Rooms or Zoom Rooms on-device, or plugs into any laptop over USB              |
| Control    | Pairs with Logitech Tap / Tap IP for one-touch join                                      |
| Management | Logitech Sync monitoring — fleet health visible under Focus Care                         |

## HOW FOCUS AV DEPLOYS IT

- We deploy Mini where the table seats four to eight; anything bigger earns a full Rally Bar, anything smaller a Rally Bar Huddle.
- Installed with the Tap controller, display at the correct height, and audio verified against the room's real acoustics — small rooms with glass walls often earn an acoustic panel at the same visit.
- Enrolled in Logitech Sync and covered under Focus Care.
