

LOGITECH · ROOM COMPUTE

RoomMate

The appliance that replaces the room PC.

RoomMate runs Microsoft Teams Rooms or Zoom Rooms as a dedicated appliance — the secure, IT-friendly compute behind modular Rally Plus systems and any room that shouldn't have a Windows PC in the credenza.

PLATFORMS & ROOM FIT

Microsoft Teams Rooms · Zoom Rooms · CollabOS · Rally Plus & modular rooms · Any PC-free room design

SPECIFICATIONS

Role	Dedicated room computing appliance running CollabOS — the platform runs on purpose-built hardware, not a general PC
Pairs with	Rally Plus, Rally camera systems and Tap controllers for large-room native deployments
Security	Appliance posture: no Windows patching cycle, no USB surprises, managed like a device not a desktop
Management	Logitech Sync plus the platform's admin portals

HOW FOCUS AV DEPLOYS IT

- Specified with every Rally Plus system we design; racked, cabled and enrolled in Sync + platform management at commissioning.
