

LOGITECH · BYOD & CONNECTIVITY

Swytch

One cable lends the laptop the whole room.

Swytch hands any laptop the room's camera, mics, speakers and display over a single USB connection — the escape hatch that lets a native Teams or Zoom room host whatever platform a guest brings.

PLATFORMS & ROOM FIT

BYOD from any laptop · Works with native Teams/Zoom rooms · Any native room · Guest-heavy spaces

SPECIFICATIONS

Function	One-cable laptop link: the room's AV becomes the laptop's peripherals for any meeting or webinar
Compatibility	USB-C and USB-A laptops; sits alongside the room's native Teams/Zoom mode
Use case	Guest platforms, webinars and training sessions run from a presenter's own machine

HOW FOCUS AV DEPLOYS IT

- Installed with dressed table access alongside the room's native system — labelled so guests find it without a support call.
