

POLY (HP) · CONTROLLERS

Poly TC10 Touch Controller

One controller, two jobs: table or door.

The TC10 is the touch surface of Poly rooms — one-touch join and full room control on the table, or flip its role and it becomes the scheduling panel at the door. One device, one spare, whole fleet.

PLATFORMS & ROOM FIT

Poly Studio X rooms · Teams & Zoom · Scheduling mode · Every Poly room · Table or door mount

SPECIFICATIONS

Control	One-touch join, share, camera and volume for Studio X rooms
Dual role	Switches to scheduling-panel mode at the door — status, book, extend
Connection	Single PoE cable for power and data
Management	Managed alongside the room in Poly Lens

HOW FOCUS AV DEPLOYS IT

- Deployed table-side with every Studio X room we install; door-mode units added where booking sanity is wanted.
- PoE single-cable installs with dressed cabling — tables stay clean.
