

Q-SYS · CONFERENCING AUDIO

Q-SYS NM-T1 Tabletop Beamforming Microphone

The table mic that's native to the Q-SYS design.

The NM-T1 puts 360-degree beamforming capture on the table as a first-class Q-SYS network device — touchless mute, PoE simplicity, and audio that lands straight in the room's Core.

PLATFORMS & ROOM FIT

Q-SYS native · PoE network audio · Q-SYS meeting rooms · Boardrooms & training spaces

SPECIFICATIONS

Capture	360° beamforming with multiple steerable zones around the table position
Mute	Touchless wave-to-mute with clear status lighting — hygiene and clarity in one gesture
Network	Single PoE cable; appears natively in Q-SYS Designer like any system component
Scale	Multiple units array cleanly across long tables under one Core's processing

HOW FOCUS AV DEPLOYS IT

- Designed into Q-SYS rooms zone-by-zone; commissioned with the Core's processing and the room's UC bridge.
