

SHURE · CONFERENCING AUDIO

Shure MXA901 Ceiling Array

Shure ceiling audio, right-sized for everyday rooms.

The MXA901 brings Shure's ceiling-array pedigree to small and medium rooms at a friendlier size and price — automatic 6-by-6-metre coverage, IntelliMix DSP onboard, and a completely clear table.

PLATFORMS & ROOM FIT

Microsoft Teams certified · Zoom certified · Dante / AES67 · Small-medium rooms · Up to 6 x 6 m coverage · Round or square, low profile

SPECIFICATIONS

Coverage	Single Zone Automatic Coverage: 20 x 20 ft (6 x 6 m) out of the box, adjustable down to 10 x 10 ft to match seating
Size	Shure's smallest conferencing ceiling array — discreet in any ceiling design
Processing	Onboard IntelliMix DSP: AEC, noise reduction and automix in the array
Networking	Dante/AES67 over a single PoE cable
Certification	Microsoft Teams and Zoom certified

HOW FOCUS AV DEPLOYS IT

- Deployed with certified Teams/Zoom rooms via a network audio interface, or into Q-SYS/Biamp ecosystems for integrated designs.
- Coverage trimmed to seats during commissioning; paired with the room's existing bar or camera without replacing it.
