

SHURE · CONFERENCING AUDIO

Shure MXA920 Ceiling Array

The ceiling mic serious rooms are designed around.

The MXA920 is the reference ceiling array: steerable pickup lobes covering a 9-by-9-metre area from one tile, feeding camera tracking and voice-lift as readily as the conference call — with the table left completely clear.

PLATFORMS & ROOM FIT

Microsoft Teams certified · Zoom certified · Dante / AES67 · Boardrooms · Training & divisible rooms · 9 x 9 m coverage per unit

SPECIFICATIONS

Coverage	30 x 30 ft (9 x 9 m) out of the box, with steerable lobes and automatic coverage that follows the conversation
Precision	Talker position data feeds camera tracking systems — the mic tells the camera who's speaking, and where
Processing	Onboard IntelliMix DSP: echo cancellation, noise reduction and automixing before audio leaves the ceiling
Formats	Square tile (drop-ceiling native) or round pendant; white or black
Networking	Dante/AES67 audio over one PoE cable — integrates with Q-SYS, Biamp and every serious DSP ecosystem
Certification	Microsoft Teams and Zoom certified

HOW FOCUS AV DEPLOYS IT

- Coverage designed per room geometry — lobes mapped to seats, exclusion zones over noise sources like air diffusers.
- Integrated with your DSP ecosystem (Q-SYS, Biamp) or direct to certified Teams/Zoom rooms; camera-tracking wired where video demands it.
- Commissioned by ear and analyser, with the configuration documented — and supported under Focus Care.

Supplied & installed in Perth by Focus AV — Solutions Focused.
