

UNIGUEST · IPTV & SIGNAGE PLATFORMS

Tripleplay by Uniguest

IPTV, signage and streaming — one platform, every screen.

Tripleplay merges enterprise IPTV, digital signage and video streaming into a single software platform — live TV and your own content, mixed per screen, managed from one browser console.

PLATFORMS & ROOM FIT

IPTV · Digital signage · Enterprise streaming · Video on demand · Corporate · Sport & stadiums · Hospitality & venues

SPECIFICATIONS

Architecture	Software-defined platform deployable on-premise, hybrid or cloud — sized from one building to global estates
Convergence	IPTV, signage and VOD natively in one system — a screen can carry live TV with signage zones around it
Content	Broadcast TV, in-house channels, streams, dashboards and scheduled signage in one lineup
Endpoints	Runs on commercial display SoCs, set-back devices and desktop players — mixed fleets welcome
Security	Enterprise-grade delivery trusted in banking, sport and regulated environments
Management	Browser console with per-zone permissions — reception's owner can't break the trading floor

HOW FOCUS AV DEPLOYS IT

- Platform architecture matched to your environment — on-premise where security demands it, hybrid where flexibility wins.
- Endpoint strategy per screen type: display-native apps where hardware allows, set-back devices where it doesn't.
- Zones, permissions and templates configured so content owners publish safely from day one — with training at handover.

Supplied & installed in Perth by Focus AV — Solutions Focused.
